

“Growing Together”

Social Media at Garstang Community Primary School

Dear Parent/Carer,

We have an active Facebook and Twitter page which serves as a means of improving communication and sharing your children's learning journeys with you. The aim of the page is to keep you better informed of what is happening in school.

The page is designed to be positive and feedback from neighbouring primary schools is that the use of social media has been a good communication tool. We will post comments about what is happening in school along with photos of children/classes. It will not be a two-way communication; it is designed for us to show you what your children have been doing. If you have questions about school it is still easier to ring or speak to the teachers firstly – even for small things! The PTA have their own Facebook page that is a closed group that you can apply to. This gives out lots of useful information – please join!

Safeguards that we have agreed and put in place

- Nobody can post on the page
- All posting will be done by a member of staff
- Photos will be handpicked and checked to ensure only those who are allowed go on
- Children's names will never be used

If you do not want pictures of your child to be used in this way please write to us to inform us of your decision.

The page for our school is “Garstang Community Primary School” and our Twitter account is “@garstangprimary”.

Mrs S Reeves
Head Teacher
